Agenda

- Ask questions of final deliveries

Notes

The meeting started by asking the questions of final deliveries, there are several things we all agreed that need to be changed:

For the Overview App

- Total Visitors – Leave the things we have already made and try to make more information that the client may be more interested on.
- Camping Status – It is not user friendly when you use “0” and “1” to show the status and it will be changed.

For the Logfile

- We will use open file dialog which is safer to browse the bank file that is sent to us.

Work division for next week

Cheperkova Nadya - Working on the Loan Application and Login Application

Ezech Chioma – Working on the Website

Lazarevic Stefan – Working on the other applications

Jiazheng Zhu – Working on the Camping Applications & Finalizing the Setup document and Process Report
