- A user can get enough information about the event
- Buy event tickets. Available are:
  - A single ticket for one day
  - A package for two days and the night
  - A package for the whole event
- Keep track of personal activities via a user profile which contains information like personal contact information, borrowed items from the loan shop, etc.

Camp site on the website

Functionalities:

- A user can view the available camping site and also see the prices
- The option of selecting a preferred camp site
- It is cheaper when a user registers on the website earlier
- Depending on the time of registration, a user can withdraw his reservation and get part of his payment back
- There should be an option for making reservations for 2, 4, or 6 people by providing the ticket number of the persons. This reservation can be done for persons who has purchased the 2 days event ticket.

About the applications

The organising chairman suggested having pictures of the food to enable easy purchase, where the user clicks on the image to order. He also added that it should be possible to reserve a camp site and access the website using a mobile phone.

The deliverables are to be completed before the end of January 2019.
